Technology

• AquaPiston canister allows water to flow into the bowl from all sides (360 degrees), increasing the power and effectiveness of the flush.
• Flush valve's 3:2 ratio harnesses the natural force of gravity and optimizes flush performance.
• Durable canister design has 90% less exposed seal material than a 3-inch flapper, for leak-free performance.
• Light-touch canister flush requires a lower actuation force than a flapper.

Installation
• Standard 12-inch rough-in.
• Supply line not included.
